

Joshua Bojorquez

Caddo Mills, TX | (832) 762-1253 | Joshuarbojorquez@gmail.com | Open to Relocation

PROFESSIONAL SUMMARY

Results-driven UX Designer and Web Project Manager with a proven record of translating complex technical products into high-converting digital experiences. Experienced leading cross-functional teams across UX research, UI design, SEO, and web development in a fast-paced B2B/B2C e-commerce environment. Skilled in WordPress CMS, Figma, and performance optimization (Core Web Vitals, CDN, caching). Produces AI-assisted cinematic commercial video content with demonstrated organic reach. Demonstrated ability to drive measurable revenue impact through conversion-focused design and data-informed product strategy. Google UX certified.

WORK EXPERIENCE

Web Project Manager

Oct 2025 – Present · 8 mos

BigBattery · Commerce, TX · On-site

- Own end-to-end web project delivery: UX sprint planning, product launch coordination, scope definition, risk management, and KPI tracking across multiple concurrent initiatives.
- Direct cross-functional teams spanning UX/UI design, front-end development, QA, SEO, and content — ensuring on-time delivery of a high-performing, accessible B2B/B2C e-commerce site.
- Drive WordPress CMS builds and platform migrations in close collaboration with development team, maintaining site integrity and performance throughout.
- Improve technical SEO and Core Web Vitals (LCP, INP, CLS) through CDN configuration, caching strategy, and code-level optimizations — measurably improving organic discoverability and page experience scores.
- Lead talent acquisition and team management across designers and WordPress developers — establishing clear action deliverables, ownership accountability, and cross-role synchronicity to keep projects on track and execution tight.

Lead UX Designer

Apr 2025 – Present · 1 yr 2 mos

BigBattery · Commerce, TX · On-site

- Led UX strategy and execution across high-velocity product launches — owning research, wireframing, prototyping, sprint planning, and KPI measurement in an agile, data-driven environment.
- Drove conversion-focused UX optimizations across homepage and key landing pages (solar, golf cart, emerging markets), directly contributing to **+77% YoY Q4 revenue growth** and **\$2M+ in attributable revenue**.
- Produced and executed product launch video content and ad campaigns that achieved **535K+ views**, directly supporting sustained product demand and **\$457K in combined B2B & B2C sales pipeline growth**.
- Owned product design strategy for mass-market lithium battery solutions — aligning user research, manufacturing feasibility, and market positioning across solar, golf cart, and industrial verticals.
- Leveraged competitive data analysis (Excel) to benchmark pricing across voltage ranges, enabling more accessible and competitive product offerings.
- Spearheaded WordPress performance optimization: CDN integration, caching architecture, and Core Web Vitals improvements to enhance site speed and user experience.

AI-Assisted Commercial Video Producer

Jun 2026 – Present

Freelance / BigBattery · Remote

- Direct and produce cinematic 15, 30, and 60-second product commercial spots using a full AI-assisted production pipeline — concepting in Claude, generating footage in Higgsfield, and compositing brand overlays, motion graphics, and atmospheric audio in DaVinci Resolve 21 and Final Cut Pro X.
- Produced two organic reels for BigBattery that collectively achieved **14.2K+ views**, **556+ interactions**, and **13+ hours of total watch time** within days of posting — top reel reached **10.9K views at 96.5% non-follower reach** with zero paid promotion.

- Handle full-stack creative production independently: creative direction, AI scene generation, sound design and atmospheric audio (Pixabay), brand identity integration, and final delivery — producing broadcast-quality spots at a fraction of traditional production cost.
- Specialize in product storytelling for technical and energy markets — translating complex value propositions into visually compelling short-form video optimized for social reels and paid ad placements.

Financial Data Specialist
P40 Financial LLC · Rockwall, TX

Jan 2025 – Apr 2025

- Managed and maintained financial datasets with emphasis on accuracy, timeliness, and compliance with internal controls.
- Streamlined data entry and reporting workflows using Excel and Salesforce, improving cross-departmental communication and operational efficiency.
- Resolved internal and external financial data inquiries through a structured ticketing system, ensuring timely resolution.
- Supported revenue analysis, forecasting, and reconciliation in collaboration with Collections and Processing departments.

Customer Service Representative
Andrews University · Berrien Springs, MI

Sep 2020 – Feb 2023

- Managed facility operations and coordinated scheduling for student employees across multiple shifts.
- Provided bilingual (English/Spanish) member support, handled membership inquiries, and maintained a welcoming environment.
